---

## Brief introduction

I am self-motivated, hard working web developer with over four years of practical experience using React.js and related technologies and tools for developing web applications. Skilled in solving issues and delivering a quality solutions within the given deadline. I strive to create challenging and engaging learning environment in which I can thrive and develop personally and professionally.

## Education

### Web development program

2017 - 2018 | Faculty of Technical Sciencies, Novi Sad

I attended this program where I had a mentor and where I had the opportunity to work with the largest domestic IT companies and gain practical experience working on real projects.

### Faculty of Economics - University of Novi Sad

2010 - 2017 | Department: Finance, banking and insurance

### Gymnasium "Svetozar Marković", Novi Sad

2006 - 2010 | General course

## Skills

### Technical skills

Core programming skills: HTML5, CSS3, SASS/.scss, JavaScript (ES6), GIT/GitHub/GitLab/BitBucket, jQuery, OOP, REST, GraphQL, HTTP, Ajax, JSON, Jira, Agile (Scrum)

Specializations: React.js, State containers such as MobX and Redux, JS/ES6, Typescript, MaterialUI, Tailwind, React Native, Node.js/Express.js and Server-side renderings Next.js, and Gatsby.js

Some experience with: MongoDB, SQL, PostgreSQL, MySQL, Java, Spring boot, Hibernate, BPMN and Vue.js

### Soft skills

Professional working proficiency in English language, hard working and responsible, communicative, focused and team player.

## Work experience

### Fullstack Javascript developer

July 2021 - present | VegalT, Novi Sad

I am currently on few different projects, mostly using Javascript language, working with React (Typescript), BPMN and Express in Node enviroment.

### React.js developer

January 2020 - July 2021 | Fourity, Novi Sad

I have successfully completed two short-term projects and for the last six months before I left the company I was working on the web application of the client from the automotive industry. Technologies that I have intensively used are React incl. (Mobx, Typescript, hooks), MaterialUI, CSS3/SASS, HTML5 and GIT/GitHub for version control.

### Freelance development

January 2018 - January 2020 | Freelance

During my freelance career I was working mostly with Vanilla Javascript, CSS, jQuery, Bootstrap, React.js and I had some working experience with Node (Express).

### Process Assistant

June 2018 - April 2019 | Banca Intesa, Novi Sad

I worked in department for system administration and control of payment processing.

### Localization partner

February 2017 - March 2018 | FootyStats.org, remote

I have managed local version of platform. I was working on local SEO and advertisement campaigns and also I was part of Frontend development team.
